Summary

Electrical and Information Engineering. I am a very diligent and focused person who is always looking to improve and develop myself, both professionally and personally. My interests lie in the fields of telecommunications, safety systems, and computer programming. In the near future, I see myself working on technologies such as Web development, Artificial Intelligence, and Machine Learning. My goal is to use my skills to make society better by tackling problems with innovation and determination.

Experience

Engineering Trainee

Sentech

Feb 2021 - Present (6 months +)

Research and Innovation

Intern

Sentech

Jun 2019 - Jul 2019 (2 months)

working on network switches, modems and routers

Artisan

Sentech

Jun 2016 - Jul 2016 (2 months)

Education

HyperionDev

Computer Software Engineering

Apr 2021 - Present

Full-Stack Web Development

University of the Witwatersrand

Bsc electrical engineering, Electrical and Electronics Engineering

2015 - 2020

Pax High

2010 - 2014

Subjects:

Mathematics

Physical Sciences

Electrical Technology
Engineering Graphics & Design
English FAL
Sepedi HL
Life Orientation

Skills

Microsoft Office • Microsoft Word • LaTeX • C++ • Microsoft Excel • Teamwork • HTML •
JavaScript • Cascading Style Sheets (CSS) • Python (Programming Language)
